p. 306-762-2130
f. 306-762-4722

Construction

Starting Monday July 15, 2024

Isolation valves are scheduled to be added/replaced to the Village water distribution system. The start of the week will primarily be site preparation which means many access holes will be appearing mainly along Main Street. (See attached map) Once the multiple sites have been prepared, water service will be affected. Prepare to be without water during business hours, there will be a period of Precautionary Drinking Water Advisory of approximately 5 days following the end of the service disruptions.

Please avoid Main Street if at all possible and be prepared to be without water during business hours Tuesday through Thursday.

Best regards,

Heath Duncan
Village Administrator/CAO
